

The mark of enduring quality

Preformed Thermoplastic

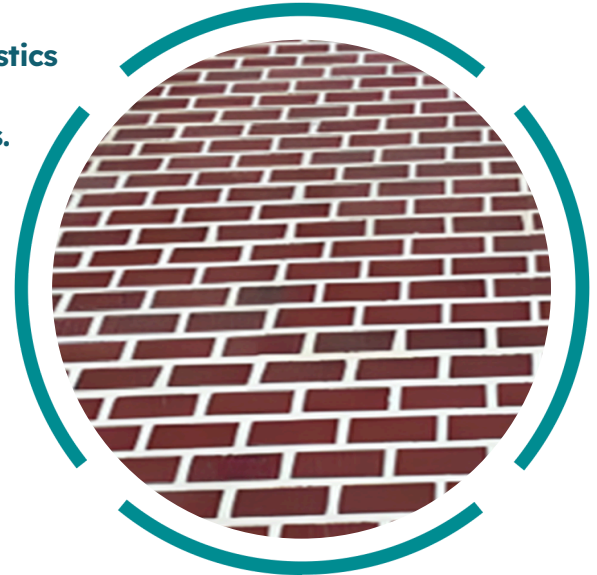

Urban Patterns™

PRODUCT SHEET

Urban Patterns™ is part of our preformed thermoplastics range, carefully crafted to create high-performance, cost-effective and simple decorative paving solutions.

This product is ideal for decorative urban and pedestrian surfaces, creating attractive and aesthetic pathways. It can also be used for traffic calming and improving traffic safety, at junctions, multi-use paths, and more.

Urban Patterns™ thermoplastic material is installed by applying the interconnected sheets without the need for stamping templates or grids. It is then heated using a propane torch or infrared machine.

High durability,
reducing the need for
reapplication

Hassle-free application

Easier and quicker to apply than traditional stone paving. Provided in sheets that are ready to use from the box.

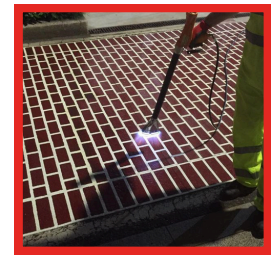

Aesthetic solutions

With a variety of design options, it provides picturesque surfacing for urban regeneration.

Anti-skid surface

Anti-skid material is evenly distributed throughout, ensuring consistent and long-lasting surface grip.

Urban Patterns™ is available in a **range of colours and designs** making sure you can find the right solution for your project.

Colour Range

Signal White RAL 9003	Green Beige RAL 1000	Fawn Brown RAL 8007	Dusty Grey RAL 7037	Jet Black RAL 9005

Bespoke colours are available upon request.
