

The mark of enduring quality

Prismo® MMA Line Marking

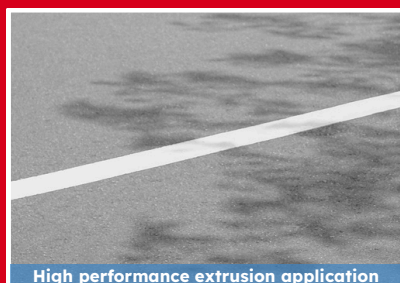

PRODUCT SHEET

Certified for highway use.
Proven reflectivity over time.
Engineered for the road ahead.

A solvent-free, two-component MMA cold applied line marking, engineered for sustained visibility and **proven long-term durability**.

Road trial certified to BS EN 1824, it achieves **R2 retroreflectivity at 70 months**, demonstrating consistent performance over an extended lifespan.

Engineered for demanding projects, it is applied by extrusion to deliver a **high-build, hardwearing finish** with **fast curing** characteristics that minimise traffic downtime.

Test results certified to BS EN 1436	Retroreflectivity over time		
	12 months	24 months	70 months
Day-time visibility	Q3	Q3	Q3
Night-time visibility	R4	R4	R2

BS EN 1824 road certified

Tested on Czech road trials, and certified for 70 months, Prismo® MMA delivers proven safety and compliance where it counts.

Sustained retroreflectivity

It maintains excellent day and night visibility, ensuring continued driver guidance and road safety – even years after application.

Cost effective over lifecycle

Extended service life and longer maintenance intervals combine to significantly reduce lifecycle costs.

Sustainable installation

Designed for efficient, low-impact installation, cold-applied systems reduce energy use and on-site emissions.
