The mark of enduring quality

Hot Applied Thermoplastic

Crystalex® NL3

PRODUCT SHEET

High Performance. Continuous Protection.

Crystalex® NL3 is a certified, Type II hot-applied thermoplastic, delivering **exceptional reflectivity** and **skid resistance**, even in adverse and wet conditions.

Combining high performance with **superior durability**, it is ideal for highways and road networks requiring enhanced, long-lasting retroreflectivity.

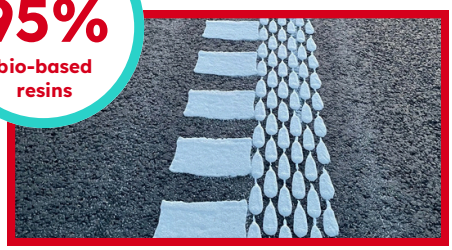

Featuring a sophisticated formula, it is certified for use as both a **flat line** and a **structured marking**.

Outstanding, **sustained performance** throughout its life, with no drop offs in visibility and no gaps in safety

CE CERTIFIED

Contains **95%** bio-based resins

A high grade, versatile material that can be applied as a flat line or a structured marking for greater efficiency and ease of use.

All systems are certified, CE marked and independently verified by KIWA to ensure consistent, reliable performance.

Continuous visibility throughout its life, ensuring constant protection for road users in dark, wet and hazardous conditions.
