Prismo®

The mark of enduring quality

Hot Applied Thermoplastic

Crystalex® NL3

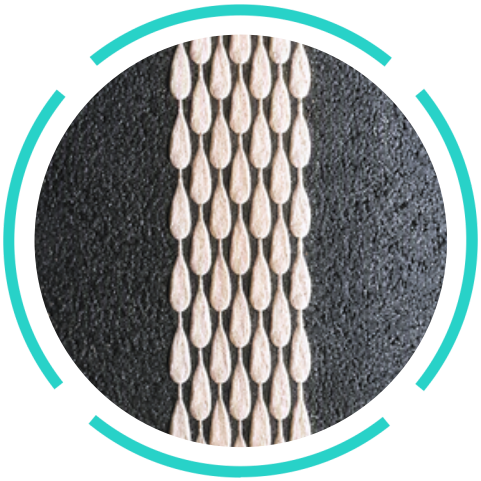

PRODUCT SHEET

Exceptional visibility. Maximum versatility.

Crystalex® NL3 is a certified, Type II hot-applied thermoplastic with an **advanced formula** that allows it to perform as both a longdot and a flat line road making.

As a longdot, its innovative structured profile helps disperse surface water, supporting **clearer road delineation** and **improved driver guidance** in hazardous conditions.

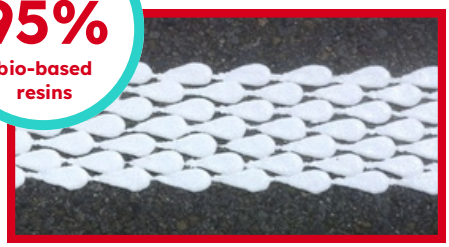

As a flat line or longdot, it combines exceptional **wet-night visibility** with superior durability, making it ideal for highways and road networks where safety is critical.

One material delivering outstanding performance as both a **structured** and **flat line** marking, maximising flexibility and reducing stock holding.

CE CERTIFIED

Contains **95%** bio-based resins

Optimised profile design reduces material consumption while delivering structured marking benefits with minimal noise.

All longdot and flat line systems are certified, CE marked and verified by KIWA to ensure consistent, reliable performance.

Delivers exceptional visibility whatever the pattern of road marking needed, maximising flexibility and efficiency.

Structured Performance Results		P0	P2	P3	P4	P5	P6	P7
Night-time visibility	Dry	R4	R4	R4	R5	R4	R4	R4
	Rain	RR4	RR3	RR3	RR3	RR3	RR3	RR3
	Wet	RW5	RW5	RW4	RW5	RW5	RW4	RW5
Day-time visibility	Qd in mcd/(m²·lx)	Q4	Q4	Q4	Q4	Q4	Q4	Q4
	Luminance factor	B5	B5	B5	B4	B5	B4	B4
